

# TDS OFFICES

SMART WORKPLACES

[www.tdsoffices.com](http://www.tdsoffices.com)

WE CAN HELP YOU TURN YOUR DESIGN INTO REALITY

OFFICES THAT EMPLOYEES WANT TO COME TO ARE OFFICES WHERE EMPLOYEES DO THEIR BEST. WE WORK WITH YOU TO MAKE IT HAPPEN.

TDS Offices always provide our customers with the reassurance that all work is carried out professionally, within the agreed programme and with an update of any cost variations, to ensure that your budget is met.

Recent research by software giant Citrix has suggested that firms need to pay close attention to the collaborative potential of their workspaces. As mobile working and working from home become more commonplace, ensuring that offices provide meaningful connection, where employees feel they can achieve success together, is vital.

## FROM CONCEPT TO REALITY

Make your project productive with our professional service. We don't go home until your project is finished.

## WHY CHOOSE US?

TDS Offices are fit out and refurbishment specialists. A track record of success, and an attention to detail, means that your project, whether large or small, will be delivered on time and on budget.

Lush required new professional offices with an eclectic feel, and both business and informal areas, to provide the employees with a relaxed but productive atmosphere. Lush chose the TDS Group as we have a positive track record for delivering office alterations and a good working relationship with the Lush staff. We were also able to react to new ideas as the project developed, without delays to the final delivery date. The project was delivered on time and the new offices are now operational and have been a success with the staff. This has led to TDS being appointed to re-fit another office block.

Papa John's biggest Franchisee, PJ Baltimore, wanted to create a new office, to manage their expanding estate, by converting a space above a store in Canary Wharf. The requirements were to create a very modern, open office space for 20 people. It was a complete fit out so we installed all the walls, ceiling, electrics, sanitary ware, flooring, entrance matting, decoration, IT systems and internal windows as well as the desks, chairs, tables and the kitchen units. Since it has opened Papa John's head office staff have visited and used it for promotional videos and training videos.

Finding new premises to accommodate our growing business proved extremely difficult. This resulted in taking on a shell space and converting it into a 2 story multi-functional working environment that had the flexibility to adapt to the continually changing needs of the business. The objective was to create a new working environment for the staff that would reflect the aspirations of the business and provide a working environment that staff enjoyed. When designing the offices we wanted to create an environment that reflected who we were, from the colour schemes to the acknowledgement of the importance of the people who work here. Since the move, the business has continued to thrive and now accommodates an increase in staff while still maintaining a calm, well structured working environment.

# WHY CHOOSE **TDS OFFICES**?

## DELIVERED WITHOUT HICCUPS

Delivering a great workspace is so much easier when your project is hassle-free. Our expertise ensures that your fitting or refurbishment is implemented safely and completed right when you need it. We don't go home until the job is done.

## THREE DECADES OF EXPERTISE

Thirty years of experience has given us an invaluable understanding of what makes a project work. It also means that we recognise the power of trust, and seek to build it by true professionalism.

## REALISING YOUR DESIGNS

Our expertise is in fitting. We are experts in working effectively with designers to make your designs a reality, providing a total service that supports you through every aspect of your project.

## MAKING SPACES THAT WORK

People will spend a large portion of their life in the workspace you create. Make it somewhere that they want to be, and where their productivity can flourish. We believe that, with tried and tested expertise, innovative design and solid research can transform workspaces into places that stimulate effective collaboration and productive communication.

## BUILT AROUND PEOPLE

Our reputation and experience are built on a professional sensitivity to our clients' interests. Understanding your needs, and the needs of the people you're designing for, is an instrumental part of our ethos. By doing so we can guarantee you a service that gives your design the expertise-driven infrastructure it needs.
